COOK'S CLUB ADAKOY

MARMARIS

COOK'S CLUB ADAKOY is the epitome of Mediterranean island architecture, working in harmony with its environment on the Gulf of Marmaris within Marmaris National Park. The property is designed with a blend of both traditional and modern furnishings, and is devoted to serving only the freshest food and beverages. Here on the southern Adakoy Peninsula, there are three private beaches for guests to enjoy and a freshwater swimming pool set against a backdrop of pine-covered mountains.

The luxurious Holiday Village has 151 standard, club and suite rooms spread across the grounds, all with unique architectural elements. The interior design of Cook's Club Adakoy and each of its rooms are curated with local, handmade, natural textiles along with wicker and wooden furniture.

Never expect to find anything like an open buffet at Cook's Club Adakoy, as it goes against our entire ethos. Here we focus on serving only the most natural, freshly prepared food to made order from our lovely knowledgeable chefs. CANTINA RESTAURANT has seven different cooking and preparation stations, as well as a rotating menu for each meal to ensure guests have a variety of dishes to cater for all tastes; No same dish is ever served more than once in every 15 days. In addition, service hours run almost uninterrupted throughout the day so guests are welcome to sit down and enjoy their food on their own time and at leisure.

Make the most of your holiday at the CAPTAIN COOK BAR, located in the heart of the property, an area reminiscent of a village square. Here enjoy a wide variety of exclusive locally sourced and international beverages, as well as specialty hand crafted cocktails, aged wines and a variety of aromatic teas and coffees. Premium drinks, bottled beer and signature cocktails are available to all categories for a small extra cost.

Each station prepares food to order to guests' personal preferences with meticulous attention to taste and presentation. All meals served, whether from our Signature Cook's Club selection or our uniquely crafted Turkish delicacies, are prepared with only the freshest, natural products, before your eyes, in no time.

With days accompanied by a chorus of native songbirds, when you aren't soaking up the soundwaves of the natural world, there is always a chance to dance to the different rhythms of DJ performances or our expertly crafted playlists across the communal areas of the hotel.

Classics of the silver screen are also shown in the comfort of your home at the beach cinema on various evenings.

Take time off to relax and indulge in some self-care at the SPA Center, which includes a sauna and Turkish bath built from local stone, as well as various opportunities for exercise, massages and other therapies for both body and mind.

In addition to the customary food and beverage service, Cook's Club Adakoy also offers the option for guests to enjoy an offering of Bed & Breakfast, Half Board and Feel Free (Limited All-Inclusive) Concepts.

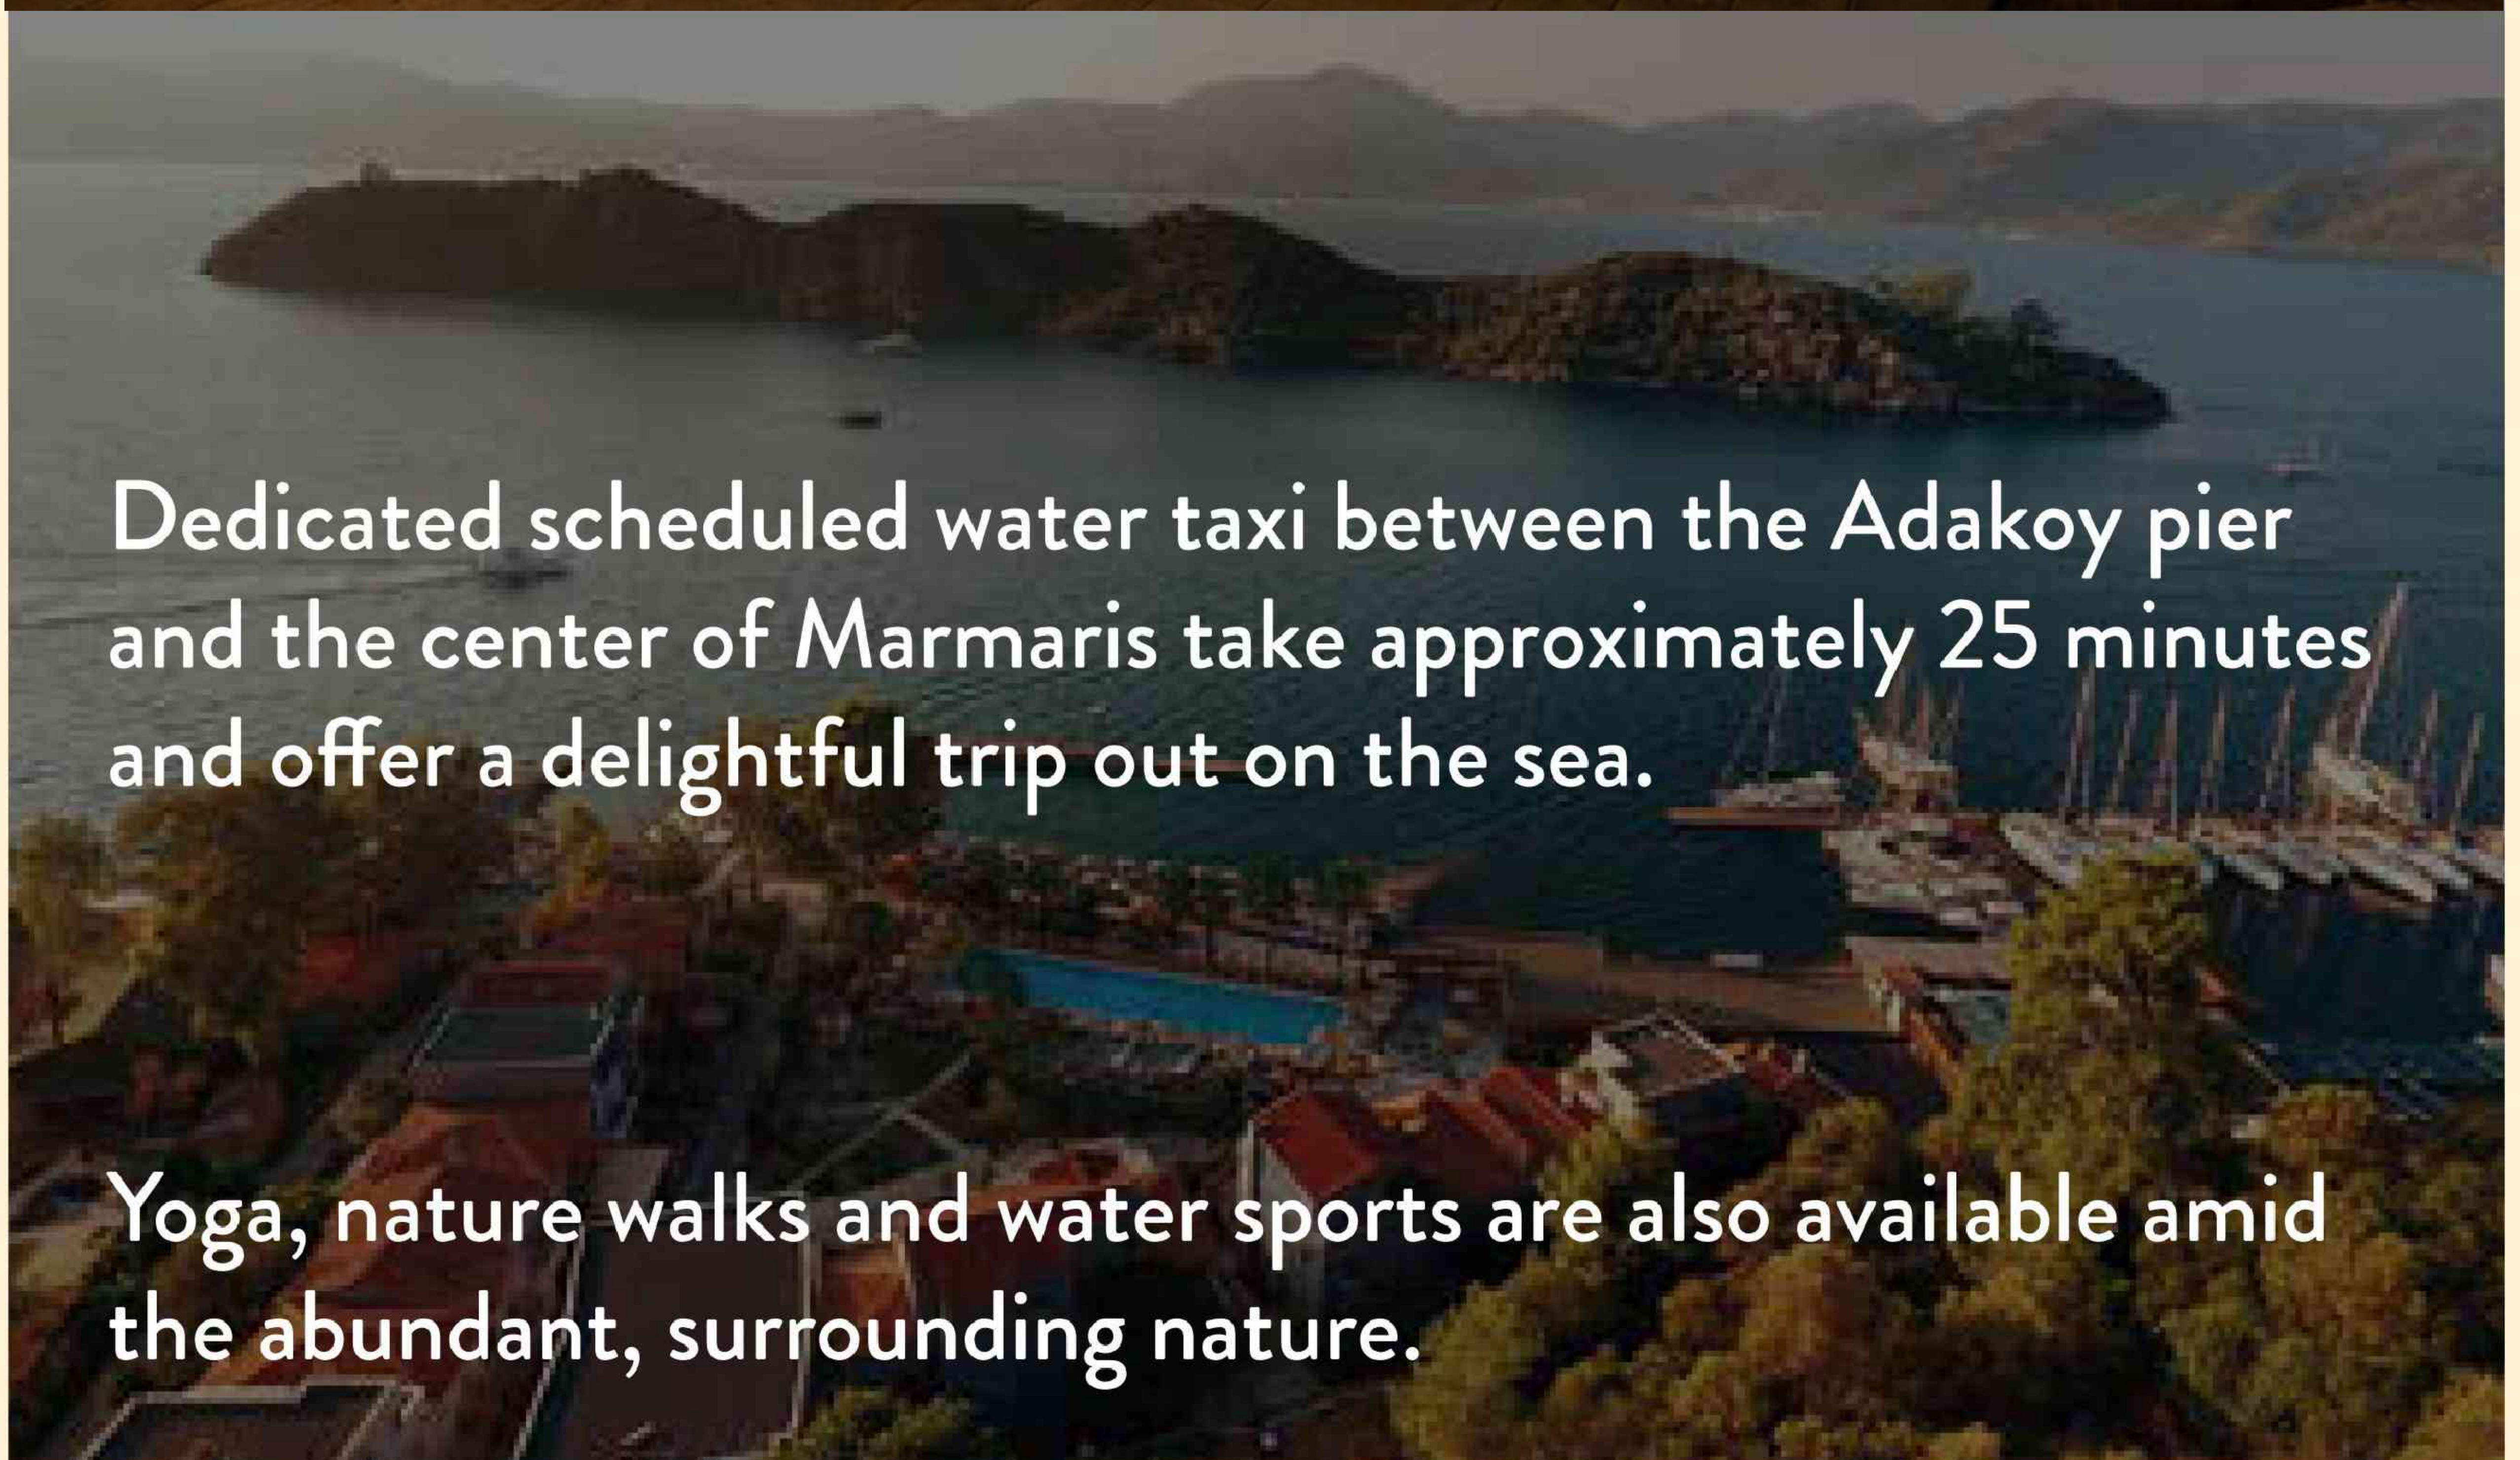

While no cash is used at Cook's Club Adakoy, guests are supplied with personal wristbands with electronic chips which can be used to purchase food, beverages and services outside the inclusions of their chosen board.

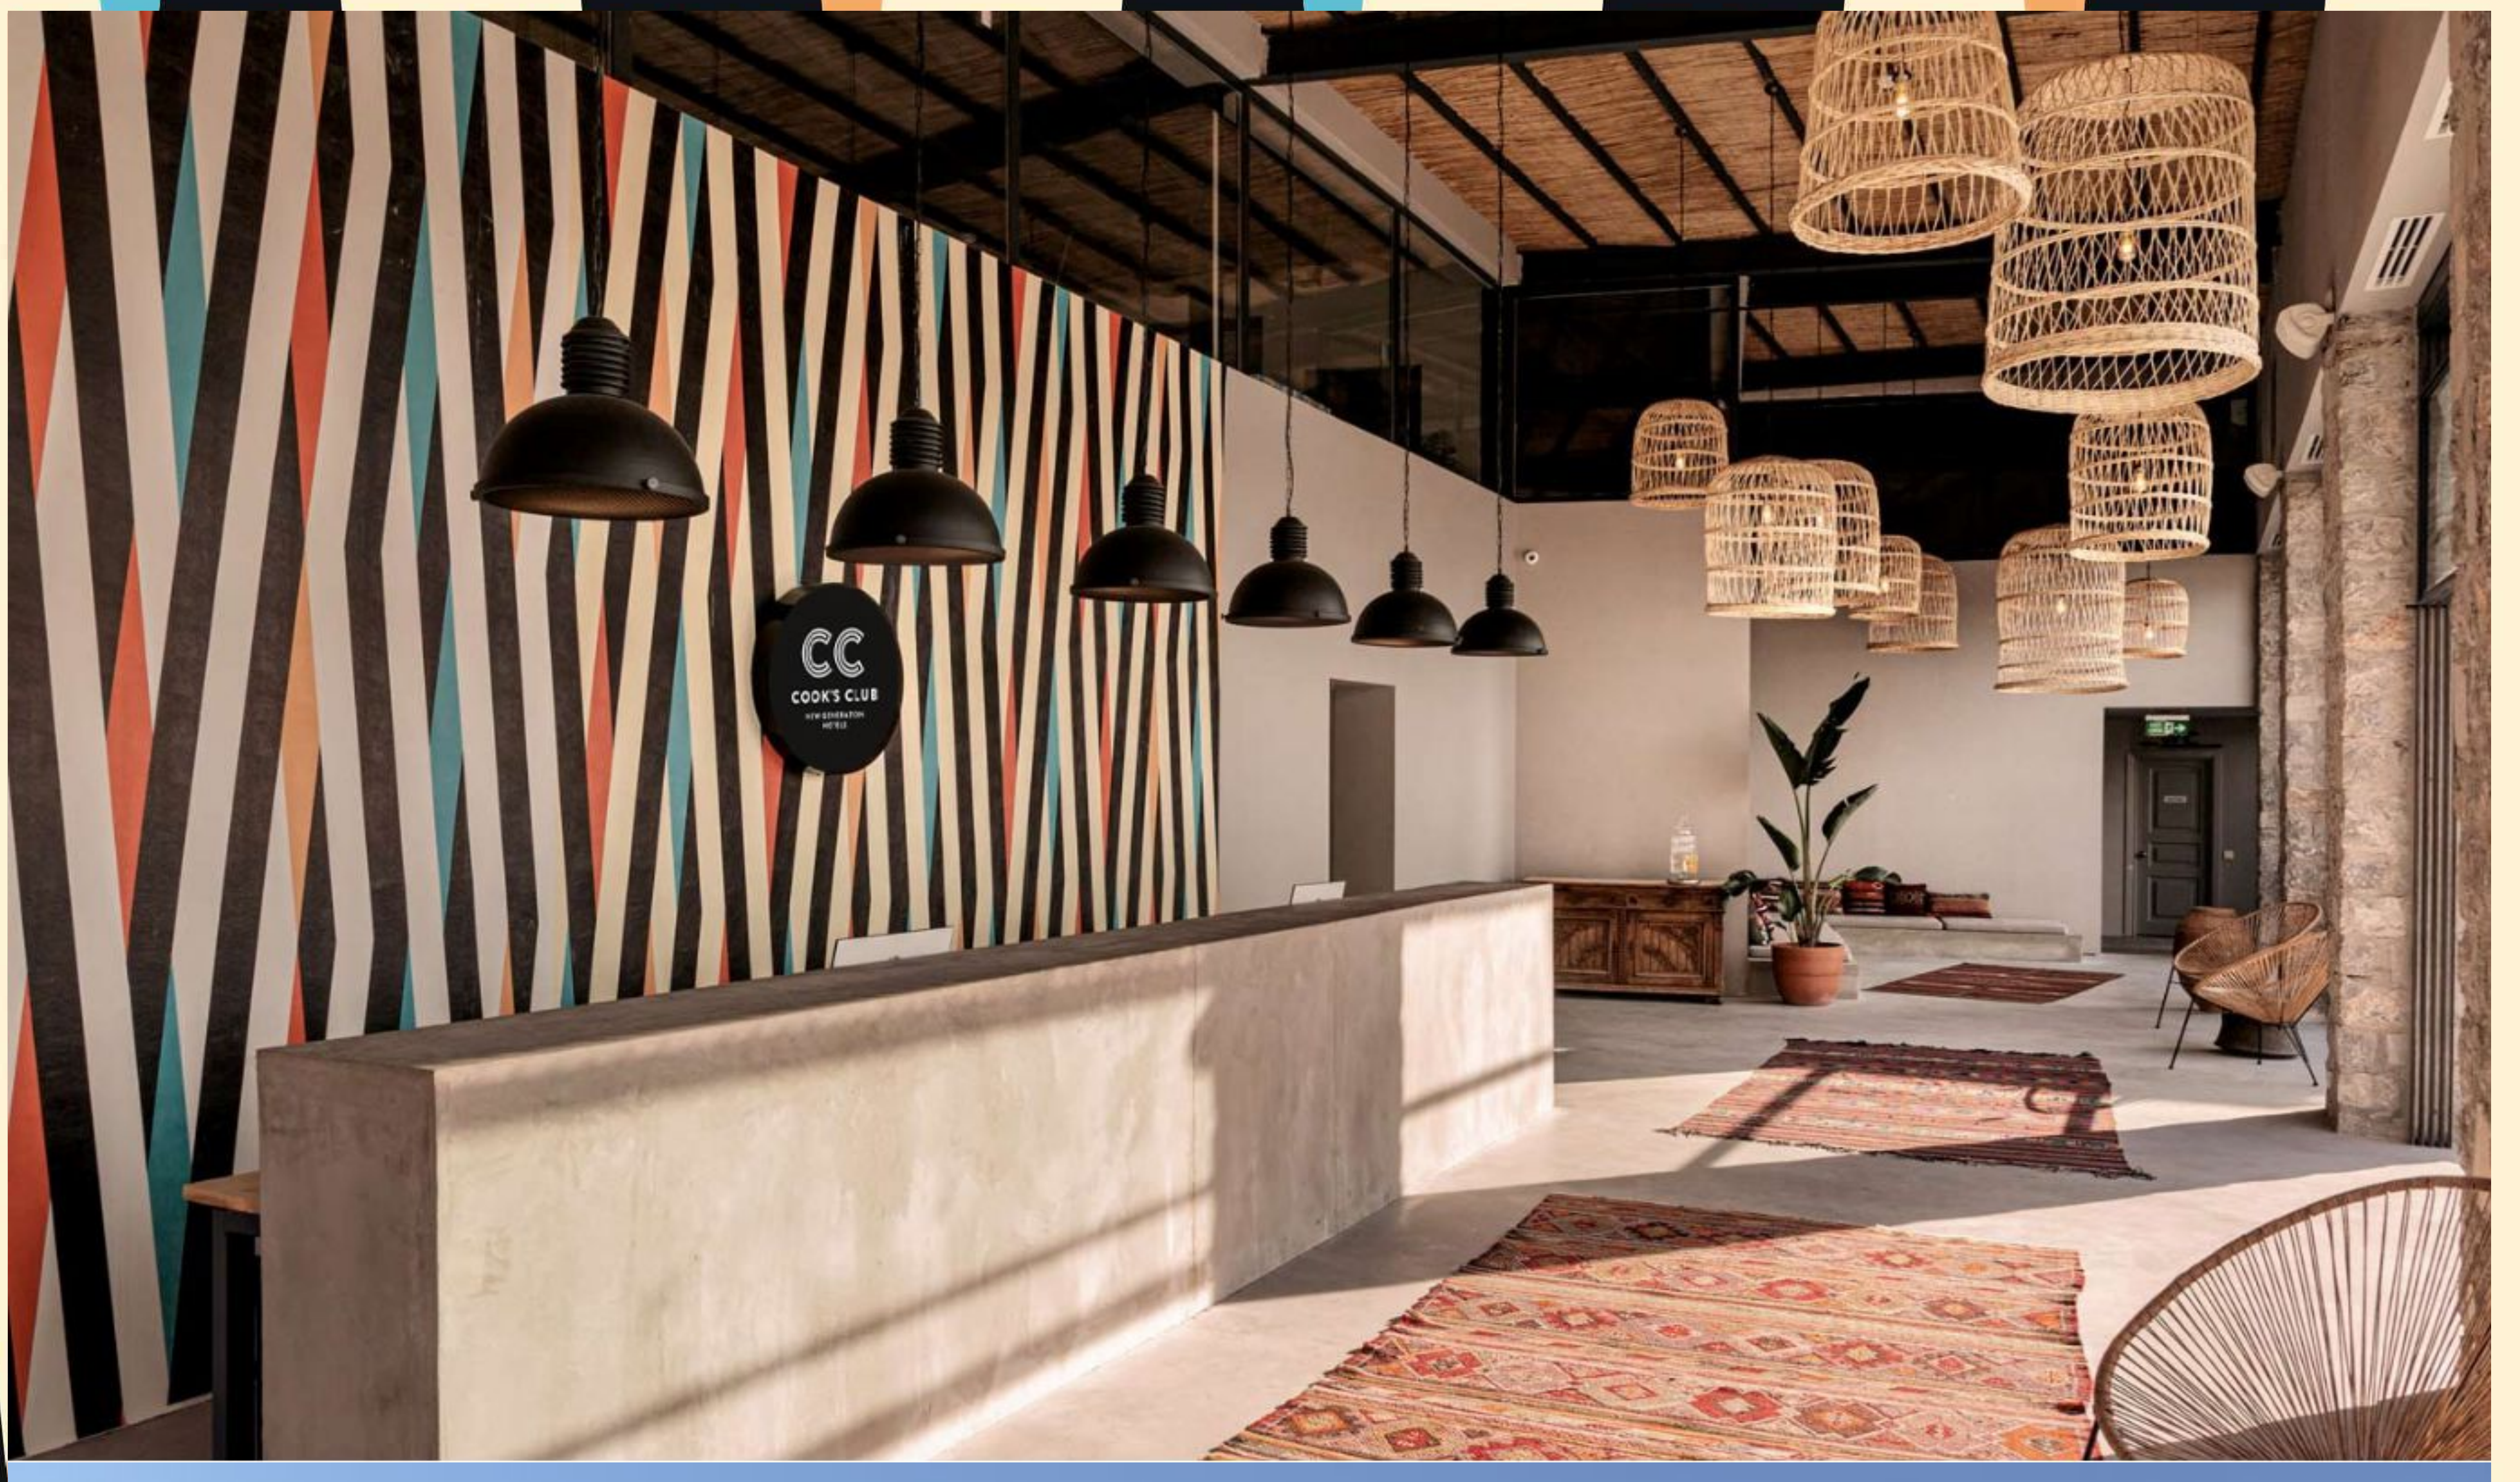

Unlike traditional all-inclusive packages, prices are kept at reasonable level, as they don't include the unconsumed items.

Dedicated scheduled water taxi between the Adakoy pier and the center of Marmaris take approximately 25 minutes and offer a delightful trip out on the sea.

Yoga, nature walks and water sports are also available amid the abundant, surrounding nature.
